

SPLASHER

Automatic pool cleaner.

Diaphragm Style Cleaner.

Requires less suction creating less wear and tear on the cleaner and the pump.

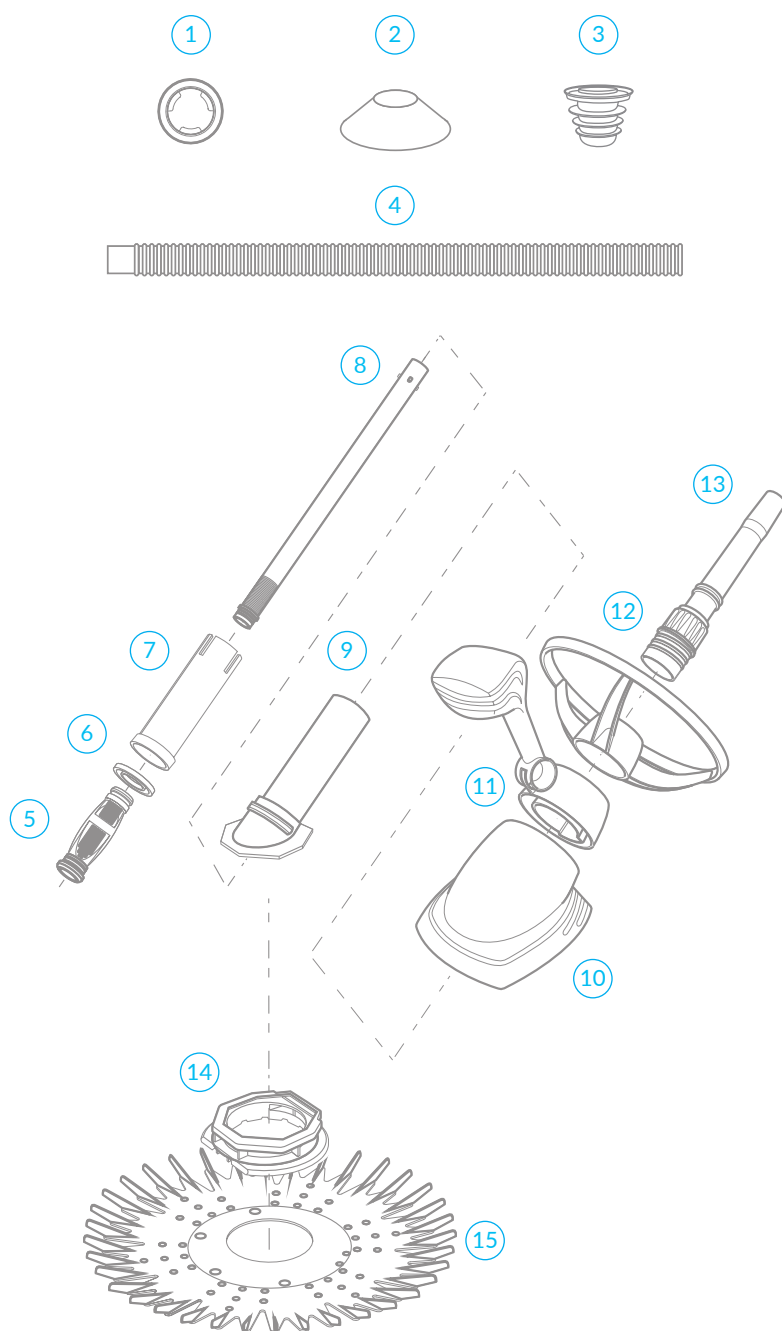

Swiveling float arm (up and down and side to side) for a more varied cleaning pattern · Deflector wheel: Used to steer the cleaner away from steps and other obstacles · UV stabilized hose and UV protected body · Easy out jogger for exceptional manoeuvrability · Diaphragm is the only moving part and is easy to replace · Adjustable flow control valve to control speed of cleaner · Hose wight provides balance to the cleaner as it manoeuvres around the pool · Colour: Blue/Silver.
